REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims **17-28** are allowable over the prior art of record because the prior art does not teach or suggest a process for producing a catalytic converter comprising the step of electrodepositing as presently claimed, esp., electrodepositing a catalytically active material. *Arlt et al.* teaches a process for coating objects by means of direct current, in which process an adjustable DC voltage is pulse-modulated with an adjustable AC voltage. The material deposited is a cationic resinous coating material (col. 4, lines 36-45). Therefore, a person skilled in the art would not have been motivated to adopt the above conditions, and a prima facie case of obviousness cannot be established.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edna Wong whose telephone number is (571) 272-1349. The examiner can normally be reached on Mon-Fri 7:30 am to 5:00 pm, alt. Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam Nguyen can be reached on (571) 272-1342. The fax phone number
